Simplify with 1™

At 1 Touch, we are focused on delivering fully automated smart technology to commercial properties as either new construction or existing structures. Our goal is to design smart business solutions to meet specific customer requirements at an affordable cost.

Our solutions integrate security, energy management, network and phone, surveillance, access control and audio/video solutions into your business environment.

Follow Us!

1TouchInfo 1TouchTech

Solutions that work for your business!

SECURITY

Intrusion, water, fire, and other hazards can be detected around the clock

ENERGY MANAGEMENT

Control lighting, temperature, shading, and other functions to reduce energy usage and increase your bottom line

NETWORK & PHONE

Improve your capabilities with full-service telecommunication and data networking that address your business infrastructure needs

SURVEILLANCE

Capturing video both inside and around your property, giving you the ability to view live and recorded video on a Smartphone, Tablet or any internet-connected computer around the world

ACCESS CONTROL

One swipe equals safety and convenience. All actions can be customized for each individual user

AUDIO/VIDEO

Bring your business to life by enhancing customer appeal using audio-visual solutions. Customize sights and sounds no matter the size of your business

We can finance your projects too!
